

# HORIZON-HLTH-2024-CARE-04-04-Two-Stage

## Access to Mental Health and Care Services for People in Vulnerable Situations

# Proposed Approach

We have a deep understanding of the issue of timely access to sustainable mental health services when suffering from ill mental health.

## We want to address the following within the scope

Types of Barriers

Access Levels to services

Solutions that enable access for all who need services inc AI

Improving the access and quality of data

Cost Analysis - The cost of inequalities in access to health and care

# Organisational Capabilities

We are an organisation that builds sustainable mental health services for industries utilising policy as our driver for change and we have been doing this now for 8yrs.

We are a SME in the area of Mental Health Policy development so are uniquely equipped to tackle a task such as this. We can utilise our relationships with the UN, CBI and the B20 to assist us with this call.

# Experience

We have created Global Mental Health Reports for the G20 & B20 in 2018, 2020. We have also created sector specific reports in 2021 & 2022.

We hold Special Consultative Status for the United Nations (UN) for our work in the field of Mental Health

Members of Employment & Education Taskforce and Members of the Health & Life Sciences Taskforce for the B20 since 2017

Members of the Confederation of British Industry (CBI)

Worked with the British Standards Institution (BSI), CBI and Institute of Director

# Administrative Information

We are planning to be the coordinator for this project. If you are interested in partnering with us please contact me on the details below
