Compliance with the UK Subsidy Control Regime

On 1 January 2021, the UK left the EU and is no longer subject to EU laws on State aid. We draw your attention to the guidance issued by BEIS: [Complying with the UK's international obligations on subsidy control: guidance for public authorities](#). Please be aware this is a living document and may be updated by BEIS as time progresses.

The set rules (typically GBER) which we previously relied on for the limits of what we could award, have now been replaced by internal decisions based on the new BEIS Subsidy Control Regime, and on policy, which will in turn set out bespoke eligibility requirements for each funding opportunity.

Innovate UK is offering funding for this competition in line with the UK's obligations and commitments to Subsidy Control. To ensure that Innovate UK remains compliant with the UK's international Subsidy Control duties in respect of:

- the EU-UK Trade and Cooperation Agreement;
- Article 10 of the Northern Ireland Protocol (successful applicants which are affected by the Northern Ireland Protocol will be funded in line with EU State aid regulations)
- Article 138 of the Withdrawal Agreement (some Union law applicable after 31 December 2020 in relation to the UK's participation in Union programmes and activities)
- the Subsidies and Countervailing measures within the WTO (ASCM)
- any other Free Trade Agreements active at the time of award

All awards will be conditional on compliance at all times with the UK's International obligations on Subsidy Control - this will be reflected in the terms and conditions of any award.

Due diligence for UK Subsidy Control Regime

Under the Subsidy Control Regime, we will carry out financial health checks and going concern assurances on your organisation.

Certify you are eligible

When submitting an application, you must certify that you are eligible for funding. If you are unsure, please take independent legal advice before applying. Should you be successful, we will complete these financial checks and assurances before confirming the loan offer.

- For more information on company sizes, please refer to the [Company accounts guidance](#).
- Further information is available on our website in the general guidance.

Eligibility Criteria - EU State Aid Regulations – Northern Ireland Protocol

If you are an applicant who is conducting activities that will affect trade of goods and/or electricity between Northern Ireland and the EU as envisaged by [Article 10 of the Northern Ireland protocol](#), then you must apply under European Commission State aid rules.

Undertaking in Difficulty

For applicants subject to the European Commission State aid rules, you will be required to prove that they were not an “Undertaking in Difficulty” (UiD). We will ask for evidence of this.

This test applies to:

- companies that are more than 3 years old
- companies where more than half of its subscribed share capital has disappeared as a result of accumulated losses.
- your parent or holding company

Certify you are eligible

When submitting an application, you must certify that you are eligible for State aid. If you are unsure, please take legal advice before applying. Should you be successful, we will apply this test as part of our viability checks before confirming the loan offer.

Further information is available on our website in the [general guidance under state aid](#).

If you are applying for an award funded under State aid Regulations, the definitions for company size are set out in the [European Commission Recommendation](#) of 6 May 2003.

Suitability for an innovation loan

You are applying for a Loan

For our Credit Team, the Business and Financial questions and financial spreadsheet are even more important than the Project Application.

Make sure you allocate sufficient time to complete the business questions fully

Allocate even more time to complete the financial spreadsheet in full – and get expert support

Failure to do this, will result in your application not being successful

In rounds 1 to 9, 29% of applications were ineligible – primarily due to inadequate financial information.

70% of eligible applications did not progress beyond the innovation assessment and initial credit evaluation

Make sure that a loan is right for your business!

HOW TO IMPROVE YOUR CHANCES OF SUCCESS

View the recorded webinar for the financial submission and consider attending a financial submission 'Deep Dive' Workshop

Financial submission “Deep Dive” workshops

Areas of the financial submission where applicants struggle to evidence their suitability:

- Presenting credible forecasts for future revenues and costs
- Demonstrating effective management of liquidity and working capital
- Evidencing adequate capitalisation

Online 90 minute workshop, with a maximum of 30 participants, to cover:

- The three core ‘problem areas’, with anonymised examples
- Breakout discussions in groups, led by a member of the innovation loans team, to enable participants to take a ‘deep dive’ into one of the core areas
- Reflections on the ‘deep dive’ discussions as a group

Prior [registration](#) is mandatory for these workshops

One participant per applicant at one workshop

We recommend that this should be the Chief Financial Officer or another member of the Board or Senior Leadership team with responsibility for developing the funding strategy of the business.

3 opportunities to join:

Deep dive workshop 1: Wednesday 2nd August 12.00-13.30

Deep dive workshop 2: Wednesday 16th August 12.00-13.30

Deep dive workshop 3: Wednesday 30th August 12.00-13.30
