

WELCOME!

EUREKA - Eurostar's Call 5 Brokerage & Consortia Building Event

Housekeeping

- All participants will be muted.
- Remember to connect your audio by using the “Join Audio” icon at the bottom left of the screen.
- If you have any technical problems, use the chat to get advice from Jess Dobbyne
- Recording and slides will be distributed to delegates and available at registration page.

Creating connections

- Use the chat to introduce yourself: name, organization, interest in Eurostars
- Use the Q&A function. We will pick them up at “Q&A session”.
- Register in the Networking Platform for post-event networking :

<https://eureka-eurostar-call5.meeting-mojo.com>

Innovate UK KTN – European Programmes Activity and support

Belen Rebollo-Garcia
Knowledge Transfer Manager

belen.rebollo-Garcia@iuk.ktn-uk.org

Global Alliance: European Programmes

We support UK organisations in **engaging with International R&I** initiatives:

- ◆ Horizon Europe
- ◆ EUREKA
- ◆ UK-European R&I Bilateral calls

Innovate UK KTN – European Programmes Team activities:

- ◆ Organising consortium building activities / events in selected topics
- ◆ Offering “Travel Grants” to attend European brokerage events
- ◆ Collaborating with European initiatives: technology platforms, European working groups, etc..
- ◆ Working with our sectors teams to embed internationalization in the UK innovation networks.

We work closely with the National Contact Points (NCPs), Innovate UK EDGE and the FCDO / Science Innovation Network.

Innovate UK KTN exists to connect innovators with new partners and new opportunities beyond their existing thinking – accelerating ambitious ideas into real-world solutions.

UK

EUREKA 
innovation across borders

EUREKA

Eurostars Joint Brief

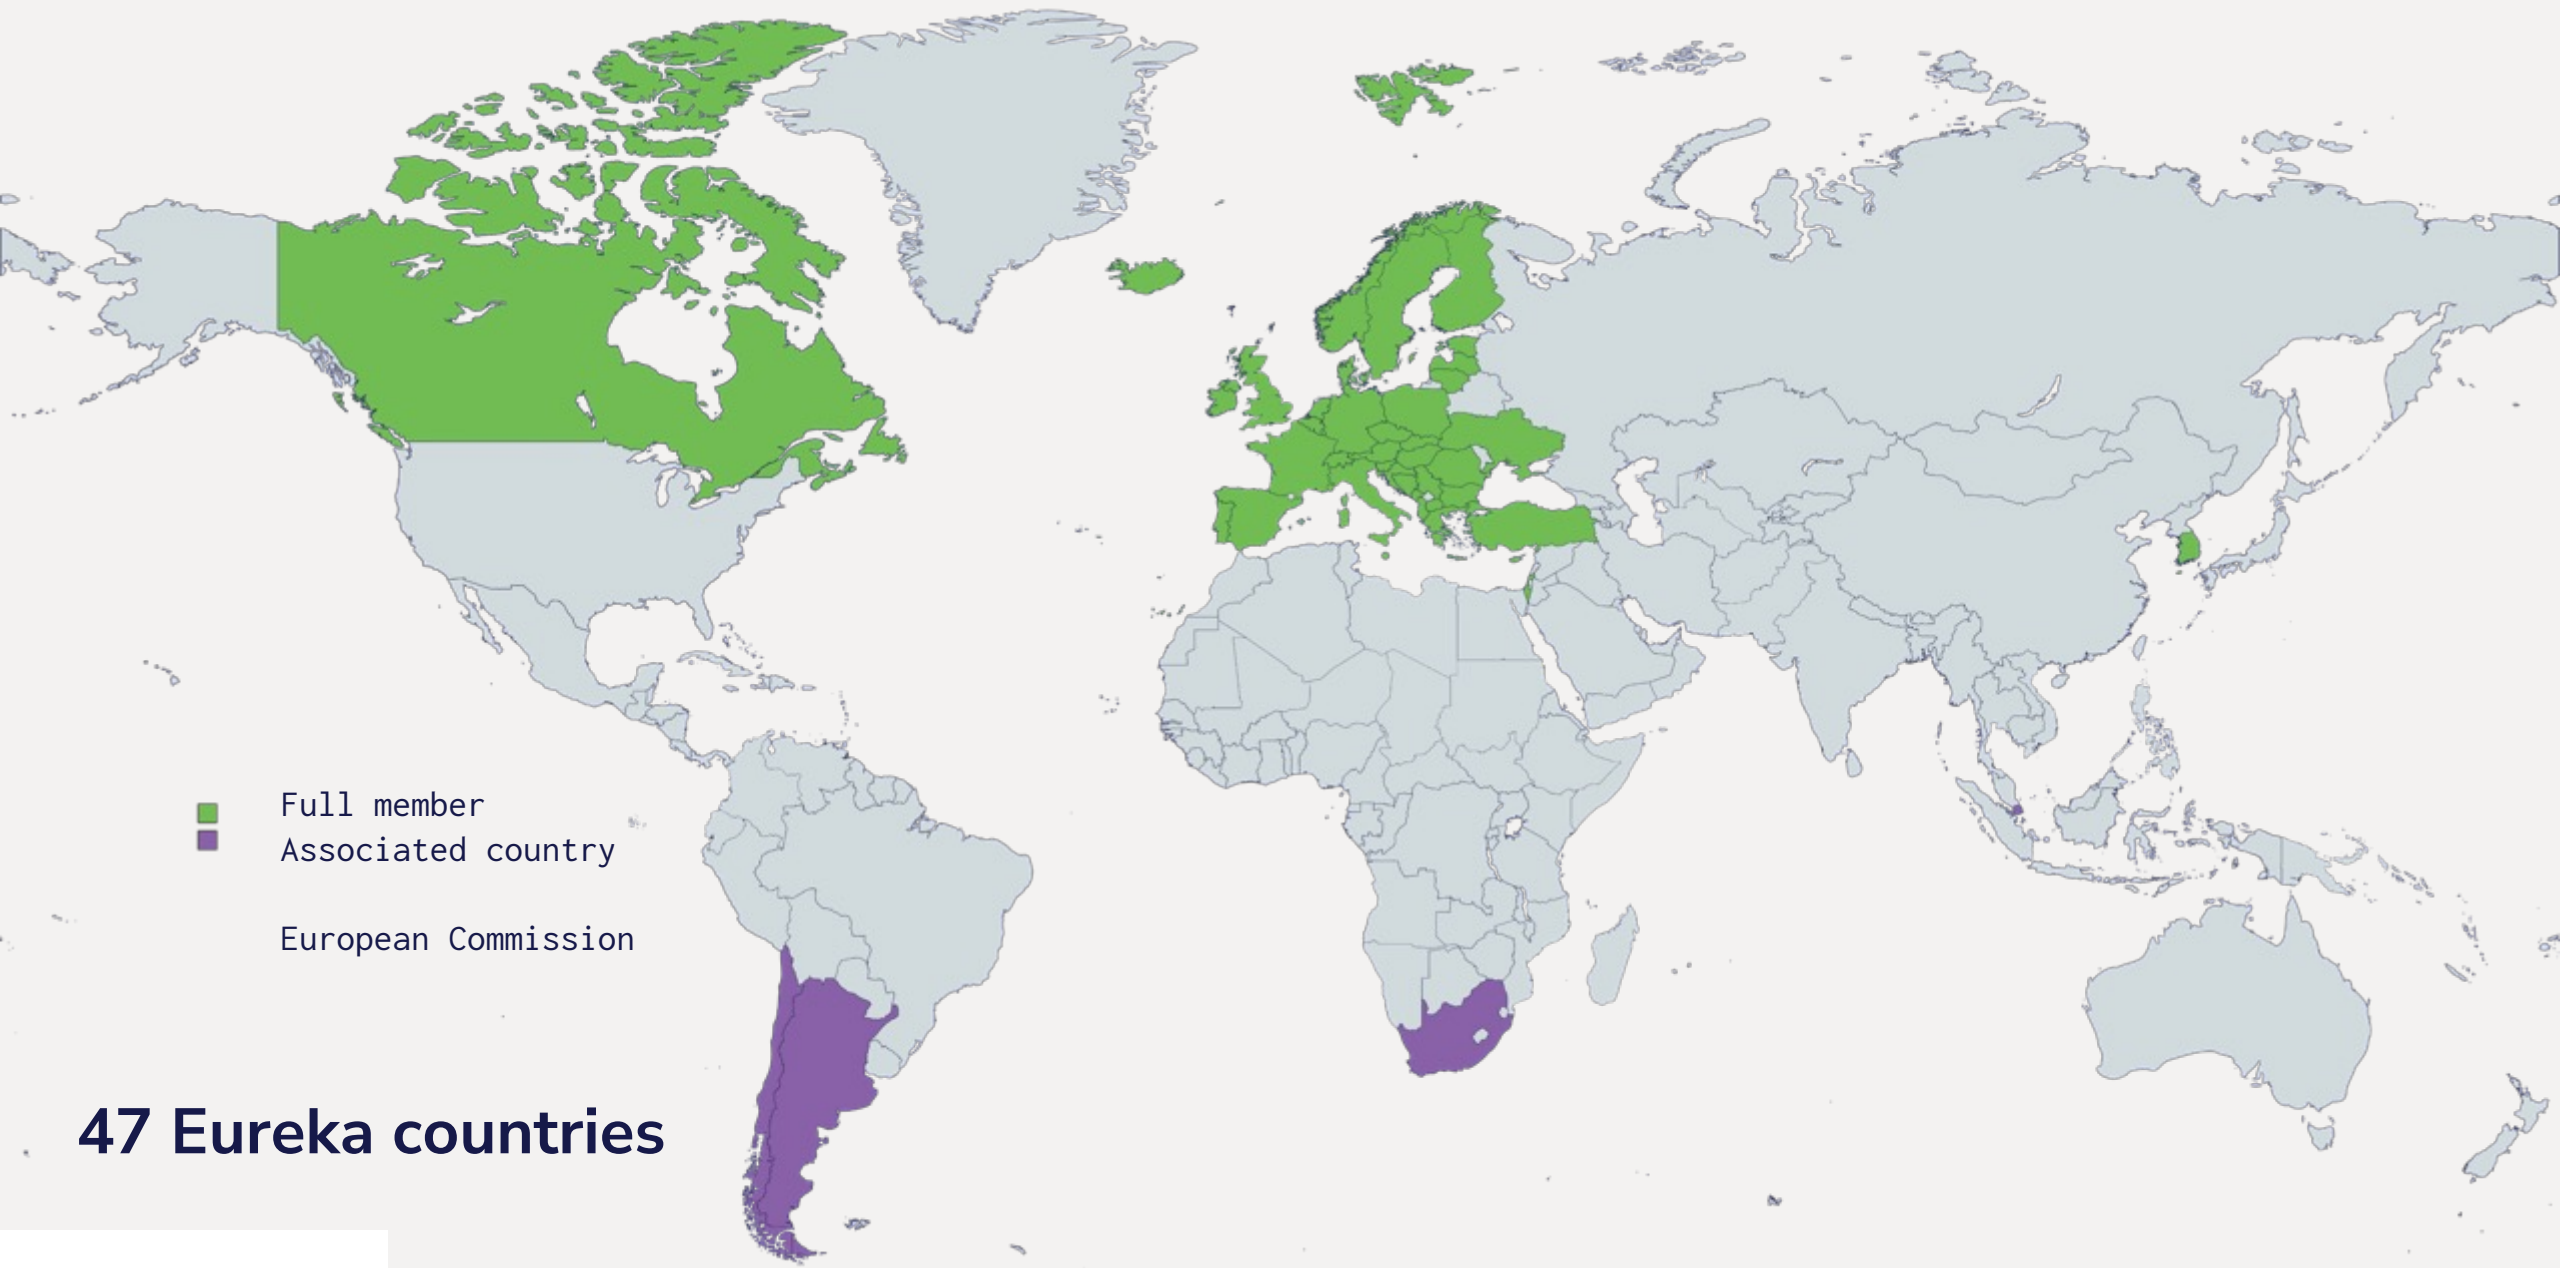

UK-ESP-NL

Since 1985:

- 48.4+ billion euro public-private investment
- 7,000+ R&D projects
- 35,000+ organisations supported

■ Full member
■ Associated country
■ European Commission

47 Eureka countries

A tool for international R&D and innovation:

Projects between partners in
any two (or more) Eureka
countries

Project characteristics:

- A civilian purpose
- International collaboration between organisations based in two or more Eureka countries
- R&D of a new product, process or service
- Market-oriented, where participating organisations decide the focus of their research

YOU'RE NOT LOST
YOU'RE HERE

Who is Eureka for?

- Startups and SMEs 59%
- Large companies 13%
- Universities 15%
- Research organisations 11%
- Other 2%

Benefits

- Access new markets
- Long-term business relationships
- Knowledge transfer
- Revenue growth

Top five technological fields

- Electronics, IT and telecommunications 28%
- Biological sciences/technologies 28%
- Industrial manufacturing, materials and transport 18%
- Energy technologies 7%
- Environment technologies 5%

Eurostars

- Innovative SMEs are the main project partner
- 37 countries and the European Commission
- 1 billion euro funding dedicated
- Two deadlines per year

Co-funded by
the European Union

EUROPEAN PARTNERSHIP

 eureka

DEADLINE: 14 SEPTEMBER Eurostars is part of the European Partnership on Innovative SMEs. The partnership is co-funded by the European Union through Horizon Europe.

Eureka programmes

Network projects flexibility for international partners

Globalstars flexibility for international partners (non-Eureka countries)

Clusters thematic industry-led communities

Eurostars innovative SMEs aim higher

Innowide supports research and business ventures in new markets

Investment readiness drives companies towards private investment

UK Eligibility

- Innovate UK will only fund SMEs, other types of organization can participate but must self-fund.
- Innovate UK contribution is £2.5m per call.
- Grant is €360k or 60% of costs, whichever is least.
- UK subcontracting is capped at 20% of the UK partner eligible costs.
- The UK entity must have at least 12 months of trading history at point of submission deadline.
- Overheads are capped at 25% of Labour.
- [Cost Guidance](#) – Eligible costs for UK partners

- The project must be led by Innovative SME, one that:
 - invests 10% or more of its turnover into research, or
 - has 10% of its full-time equivalent staff working on research activities, or
 - has 5 or more full-time staff working on research activities, if the SME has 100 or fewer employees, or
 - has 10 or more full-time staff working on research activities, if the SME has more than 100 employees

- You must follow:
 - [Eurostars eligibility criteria](#) link takes you to the UK page, you can change country on the Funding Information tab.
 - [Innovate UK Criteria](#) at the competition application deadline and throughout your project.
 - [Eureka Home Page](#)

EUREKA Eurostar's Brokerage & Consortia Building Event Call 5

eurostars™

Luis Tejero Povedano

Deputy Directorate of Technology Cooperation

19th July 2023

eurostars3@cdti.es

Cofinanciado por
la Unión Europea

Centro para el Desarrollo Tecnológico y la Innovación

Se autoriza la reproducción total o parcial, citando la fuente.

Centre for Technology Development and Innovation(CDTI)

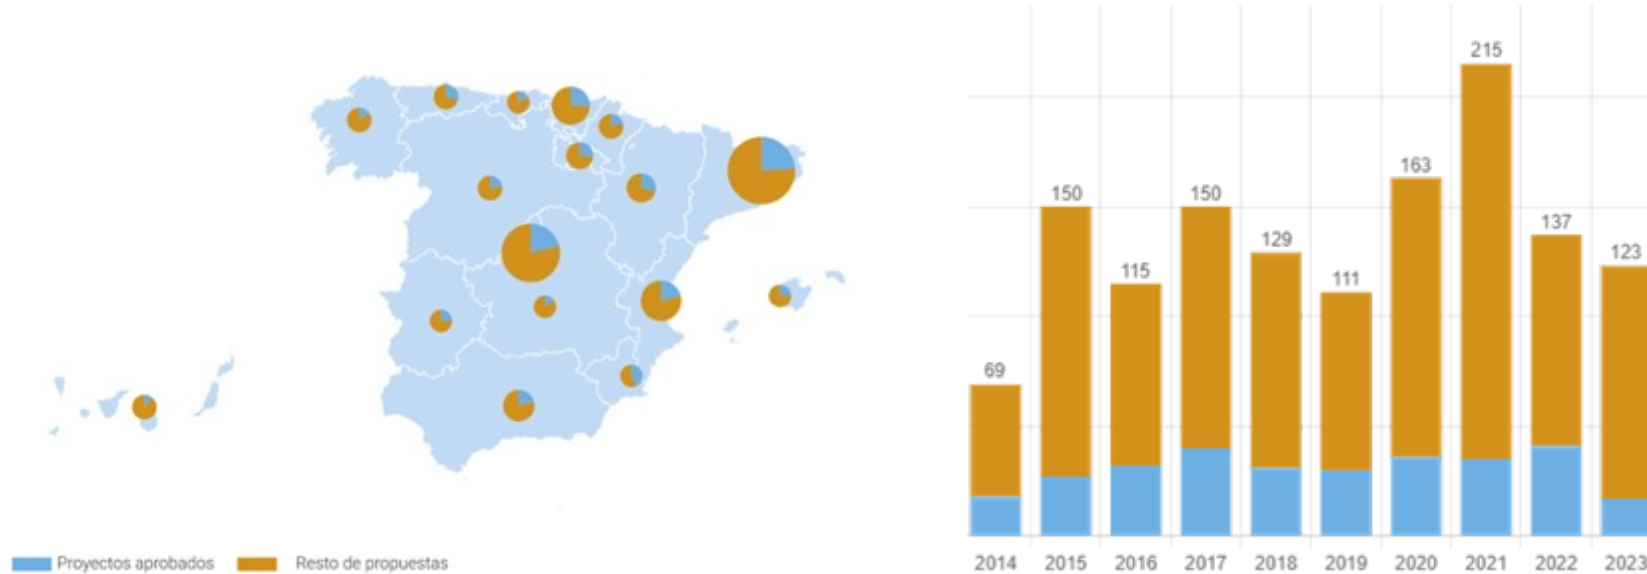

A Public Business Entity, which fosters the technological development and innovation of Spanish companies by funding and support applications for national and international R&D&i projects of Spanish companies.

- Clusters
- Network Projects
- Globalstars Calls
- Eurostars

Spanish participation in Eurostars

Average submission	Average approval	Success rate
65 proposals (80 companies)	20 projects (28 SMEs)	30%

Annual commitment of €13M (€6.5M per cut-off)

Eurostars-3. National Eligibility Criteria

Entities

- ✓ **SMEs legally** established in Spain are eligible.
- ✓ Not subject to an **E.C. recall order**.
- ✓ The company is “**not undertaking difficulties**” and has the **financial capacity** to execute the Project.
- ✓ **Accounts registered** for at least the last financial year on the date of the CoD.
- ✓ **One eligible application** per company in each Eurostars call.

Project

- ✓ **Activities and expenses in 2024**
- ✓ The eligible activities cannot exceed **36 months** in duration.

Eurostars-3. National Funding Criteria

Interempresas call for direct grant addressed to Spanish SMEs in approved Eurostars-3 projects.

- ✓ Deadline for submission: first quarter 2024
- ✓ Maximum grant: No maximum or minimum budget per project or entity. Grant limited up to **€400.000**, covering 60% of the eligible budget for small companies and 50% for medium-sized companies.
- ✓ Eligible activities: **Industrial Research or Experimental Development**. “General Block Exemption Regulation”. **NON-ELEGIBLE activities**: *Dissemination of results, market studies, commercialisation, patent applications, industrial scaling, production, certifications, etc.*
- ✓ The eligible budget of each beneficiary at national level may not exceed the amount of the budget included in the approved international application by more than 1%.
- ✓ Eligible costs between the **start and end date of the project**, and approved in Resolution

Eurostars-3. National Funding Criteria

Eurostars Budget

Personnel costs

✓ Personnel: technical + management (< 58 hours/month)

Overheads

✓ Overheads: < 25% of staff costs

Travel

✓ Travel: < 8.000€ per project and participant

Materials

✓ Materials: (i) fungible (acquisition) + (ii) inventorable (depreciation)

Other

✓ Others Cost: audit costs < 2.000€ per project and year

Subcontracting

✓ Subcontracting: <25% total budget, reaching 50% in the case of Public Research Centers (R&D Consultancy up to 8.000€ per Partner and Project).

“Interempresas” Budget application

Recommended WP structure

WP 1: Project Management and Ethics

- Personnel costs** – Up to **0,4 p/month** Administrative and/or technical staff
- Overheads** – Up to 25% of project management personnel costs
- Travel** – Up to 8.000€ per participant along the whole project
- Materials** – **None**
- Other** – Audit costs ≤ 2.000€ per financial year
- Subcontracting** – Consultancy – up to 8.000€

Technical WPs: at least 2, but not more than 5

- Personnel costs** – technical staff performing R&D tasks only
- Overheads** – Up to 25% of technical staff personnel costs
- Travel** – **None (WP1)**
- Materials** – consumables (purchase cost) & equipment (depreciation cost)
- Other** – **None (WP1)**
- Subcontracting** – Subcontracting of technical tasks < 25% total

Most common weaknesses in evaluation

(CoD1, CoD2, CoD3)

IEP Comments	
IMPLEMENTATION	<ul style="list-style-type: none"> • Unbalanced consortium with partial synergy/ Limited added value through the cooperation. • Consortium is lacking some qualifications /some expertise is missing /level of managerial • Methodology, planning, milestones and deliverables are insufficiently described. • Cost structure is not convincing / unbalanced. Cost breakdown needs some clarification.
IMPACT	<ul style="list-style-type: none"> • Expected market share is overestimated. • Commercialization plan and business model are not convincing / is lacking some detail. • Unrealistic/ too optimistic time to market • Market entry barriers not convincingly addressed. • Competitive advantage not fully convincing / Competition is underestimated. • SDG-related impact as well as social and environmental risks are not fully described.
EXCELLENCE	<ul style="list-style-type: none"> • Low-Medium innovation. Moderate incremental innovation. • New knowledge generation is limited. • Technical approach is not fully convincing. • Gender dimension is not fully convincing • IPR strategy is weak. • Risks are defined but the mitigation plans are inadequate.

ELASER – “Eye-safe” Laser Cleaning

What is “Eye-Safe” Laser Cleaning

- ❑ “Eye-safe” Laser-cleaning uses high-energy laser pulses to remove contamination / surface layers from substrates
- ❑ **Green-technology** – uses no water, chemicals or consumables
- ❑ **Safe-technology** –
 - Contact-free and abrasion free – no damage to the substrate
 - “Eye-safe” – can be used in public-access applications

Scope of Projects and Partners

- ❑ Do you have or know of a surface cleaning / coating-removal problem to be solved?
- ❑ Would water-free, chemical-free, consumable-free cleaning offer advantage?
- ❑ Application can be manufacturing, heritage, restoration, automotive, aerospace, food, agricultural.....
- ❑ WSL are willing to partner or co-ordinate a Eurostars project

WSL’s Unique Capabilities and IP

- ❑ **>25 Years experience manufacturing high-power**
- ❑ **Suite of high-power laser-cleaning tools**
- ❑ **Strong IP on “Eye-safe” laser-cleaning technology**
- ❑ **Proven commercial track-record**
- ❑ **Experience on Horizon and Eurostars collaborations**

Waste Tyres to Energy

Proposed Approach & Experience

- ▶ According to Afrobarometer survey (December 2019), fewer than half (43%) of Africans have a reliable supply of electricity.
- ▶ Since 2019, SA Citizens had the worst loadshedding experience, with blackouts persisting for a total of 530 hours, and Stage 6 load shedding being implemented for the first time.
- ▶ Slow economic growth due to unreliable energy supply (loadshedding and load reduction)

Partners

Technology and equity partners

Organisational Capabilities

Partnered with the University of Johannesburg to provide technical advice

ABOUT US

FACILITIES | WESTCOTT

TESTA

OFFICES & EN9100 WORKSHOP

Westcott, the UK hub for space propulsion
The home of URA Thrusters | the home of the National Space Propulsion Test Facility (NSPTF)

ABOUT US

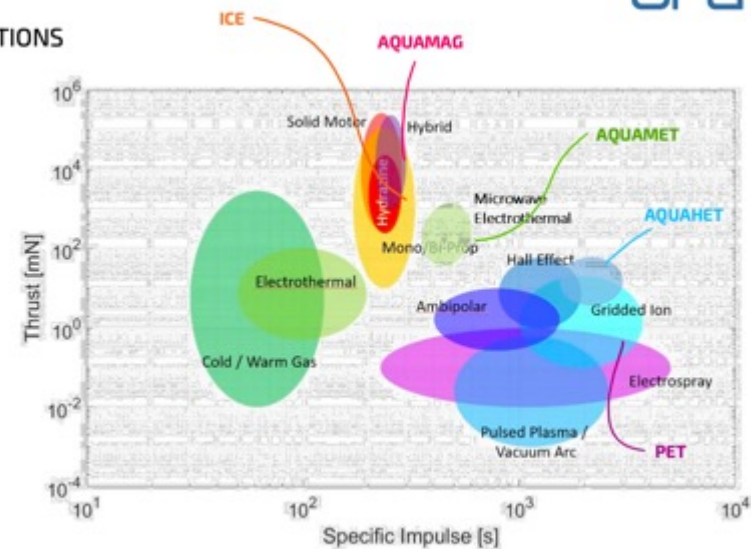

SUSTAINABLE PROPULSION SOLUTIONS

means **water** in the Basque language, the oldest living language in Europe and, perhaps, the seed of all articulate language.

At URA we transform not communication, but in-space transportation by providing green, low-cost and high-performance propulsion solutions.

FIVE TECHNOLOGIES TO DOMINATE THE MARKET

DISTRIBUTION: Suppliers, Customers and Partners

The contents of this presentation are confidential and/or proprietary

PET | Electro spray

PET is/s Processing Unit (PPU)
Propellant Management Assembly (PMA)
Thruster Mount Assembly (TMA)

PET, the first EU low-power (>20 W) electro spray propulsion solution

LAUNCH Q2 2024

	PET-50
Nominal thrust	1 - 1.2 mN
Dynamic thrust	0.05 - 1.5 mN
Power	<50 W
ISP	>2,000 s
Total impulse	>4,000 Ns
Wet mass	<1.5 kg
Volume	1 U (~100 x ~100 x ~100 mm)
Temperature range	-10 to + 70 degC
Power bus input	12 V 24 to 32 V 50 V
Lifetime	>5 years
Applications	Smallsats LUR-1 microsat (2024) Available in 2023

SAFE AND INERT
Ionic liquids are inert and non-toxic propellants that can be handled with normal care. Ideal for ride-share

MODULAR AND SCALABLE
Amount of liquid and emitter arrays can be modified to suit all mission needs. Even 4 x PET-50 modules are competitive in 100-200 W apps.

THROTTLEABLE
Thrust and impulse can be changed by varying the applied voltage. Large range of dynamic thrust.

PLUG-AND-PLAY
Preloaded. No pressurised tanks. Bolt-on. It includes PPU. No need for launch or integration activities.

BATCH PRODUCED
Emitter tips, and main critical components are batch produced, providing a low-cost and low lead-time system. Ideal for constellation use.

SMART WATER FLOW MONITOR

Today, natural resources are more precious than ever, and water is the #1 global risk according to the World Economic Forum.

Global challenges : GHG emissions & water scarcity facts:

Worldwide Water stress map

To offset CO2 emissions new buildings need to be nZE
So, how do we contribute from Defcon8?

-According to UN water demand will outstrip it's availability by 40% in 2030.

Global warming brings extreme weather : floodings and droughts.

-70% of freshwater goes to agriculture, but 75% Europeans live in cities, which need to be more resilient/drought proof...

-20% of energy requirements of a typ.household are for warm water

-We can still fight global warming but the maths are daunting

Empowerment & engagement

Schools, offices & households can set their own **daily consumption target** and see the 'remaining amount of water' during every use.

The target is self imposed, so it generates engagement and empowerment.

Example : typical household of 2

Impacts (Smart city)

	Before Defcon8	After	Savings /yr
NRG →	1600 kwh	1360	240 kwh
CO ₂ →	0,7 Tn	0.59	0,11 Tn
Water →	86 m ³	77	9 m ³

measurement is key to achieve savings

Typical water usage split per person/day

Approximately half of the water saved is hot

A city like Zaragoza, with 740K inhabitants could save yearly

630.000m³ of water
18 Gwh in water heating
3297 t CO₂
(4,2 M€)

if just 20% of households used the Smart Water Monitor

Smarter urban water: how Spain's Zaragoza learned to use less

Facing severe crop failure and forest fires, pioneering citizens transformed habits in a decade and reduced water use by 27%

- How damaged Driever turned to ridiculing waste
- Why Melbourne needed to catch and store

<https://www.theguardian.com/finance/2014/jul/30/zaragoza-smarter-urban-water>

SAAS /Statistical data treatment (optional)

Example: 4* Hotel (100 rooms)

Water usage: 20.000m³/yr.
90% of which in rooms
Invoice: 57K€/yr
Occupation: 95%

Potential savings

- 1800 m³ water
- 52 Mwh in water heating
- 9.6 t CO₂

Total 13K€ /yr

Savings in water usage in hotel rooms: 11% without offering economic benefit to customers.

ROI → 3,5 years in Barcelona (without grants)
→ 2,5 years in Hamburg, Berlin, Glasgow
→ 1,8 years in Copenhagen, Gent, Aarhus

Value for future generations : priceless

Information flow

<p>Proposed Approach & Experience</p> <p>Problem: To provide services to the Hispanic community (Spanish language) in the Netherlands (>150K people), addressing the language barrier (Dutch language) is vital. Offering services in their native language ensures clear communication and accurate tax filing. Understanding their cultural nuances and unique needs is important for effective tax consultancy. Simplifying the tax administration process through a user-friendly platform enhances administrative efficiency. The platform is in Dutch, Spanish and English.</p> <p>Experience:</p> <ul style="list-style-type: none"> • Bilingual Tax Professionals: Essential for effective communication with Hispanic clients, tax professionals should be fluent in Spanish and Dutch, with deep knowledge of Dutch tax laws. • Cultural Competence: Understanding the unique needs and customs of the Hispanic community, and providing tailored services accordingly. 	<p>Partners</p> <ul style="list-style-type: none"> • We are looking for partners skilled in platform development to collaborate on improving our existing platform and automating more processes. Moreover, we are interested in partnering with investors who can help us in expanding our services to other communities within the Netherlands, including Polish, Italian, Portuguese speakers, and more. 20% of the population in the Netherlands consists of foreigners (an average of 3.5 million), this business model has the potential to expand into The Netherlands and other European Union countries as well. • We have had up to 1000 users on our platform, and we are soon launching the app version of the platform in three languages (English, Dutch, and Spanish), with plans to add more languages in the future.
<p>Organisational Capabilities</p> <ul style="list-style-type: none"> • Tax Expertise: CEO Founder and consultants have a strong foundation in Dutch tax laws, regulations, deductions, and reporting requirements. • Compliance Knowledge: Staying updated with tax regulations for accurate and compliant tax filings. • Scalability: Ability to scale operations, infrastructure, and team to accommodate a growing client base. • Secure Platform: A user-friendly platform is vital for managing tax declarations, ensuring seamless input and submission while maintaining confidentiality and data security. • Customer Support: Providing personalized and responsive support, including bilingual assistance, addresses client inquiries, clarifications, and guidance, enhancing overall satisfaction. 	<p>Administrative Information</p> <p>Our organisation provide tax services to SME companies in the Netherlands.</p> <p>Company: Psm consultancy BV was founded in the Netherlands in 2021. CEO Founder PSM consultancy BV: Patricia Santa Cruz Nationality: Peruvian - Dutch Email: info@psmconsultancy.nl Telephone: +31618786126</p> <ul style="list-style-type: none"> • I am planning to be the coordinator.

Breakout Rooms

-Pitchers' Break-out rooms

1 Break-out room for each pitcher so any delegates can talk to them. After the first 15 min pitchers can move away from their room.

Organisation	Speaker
Woodrow Scientific	John Cloves

InnovateUK
KTN

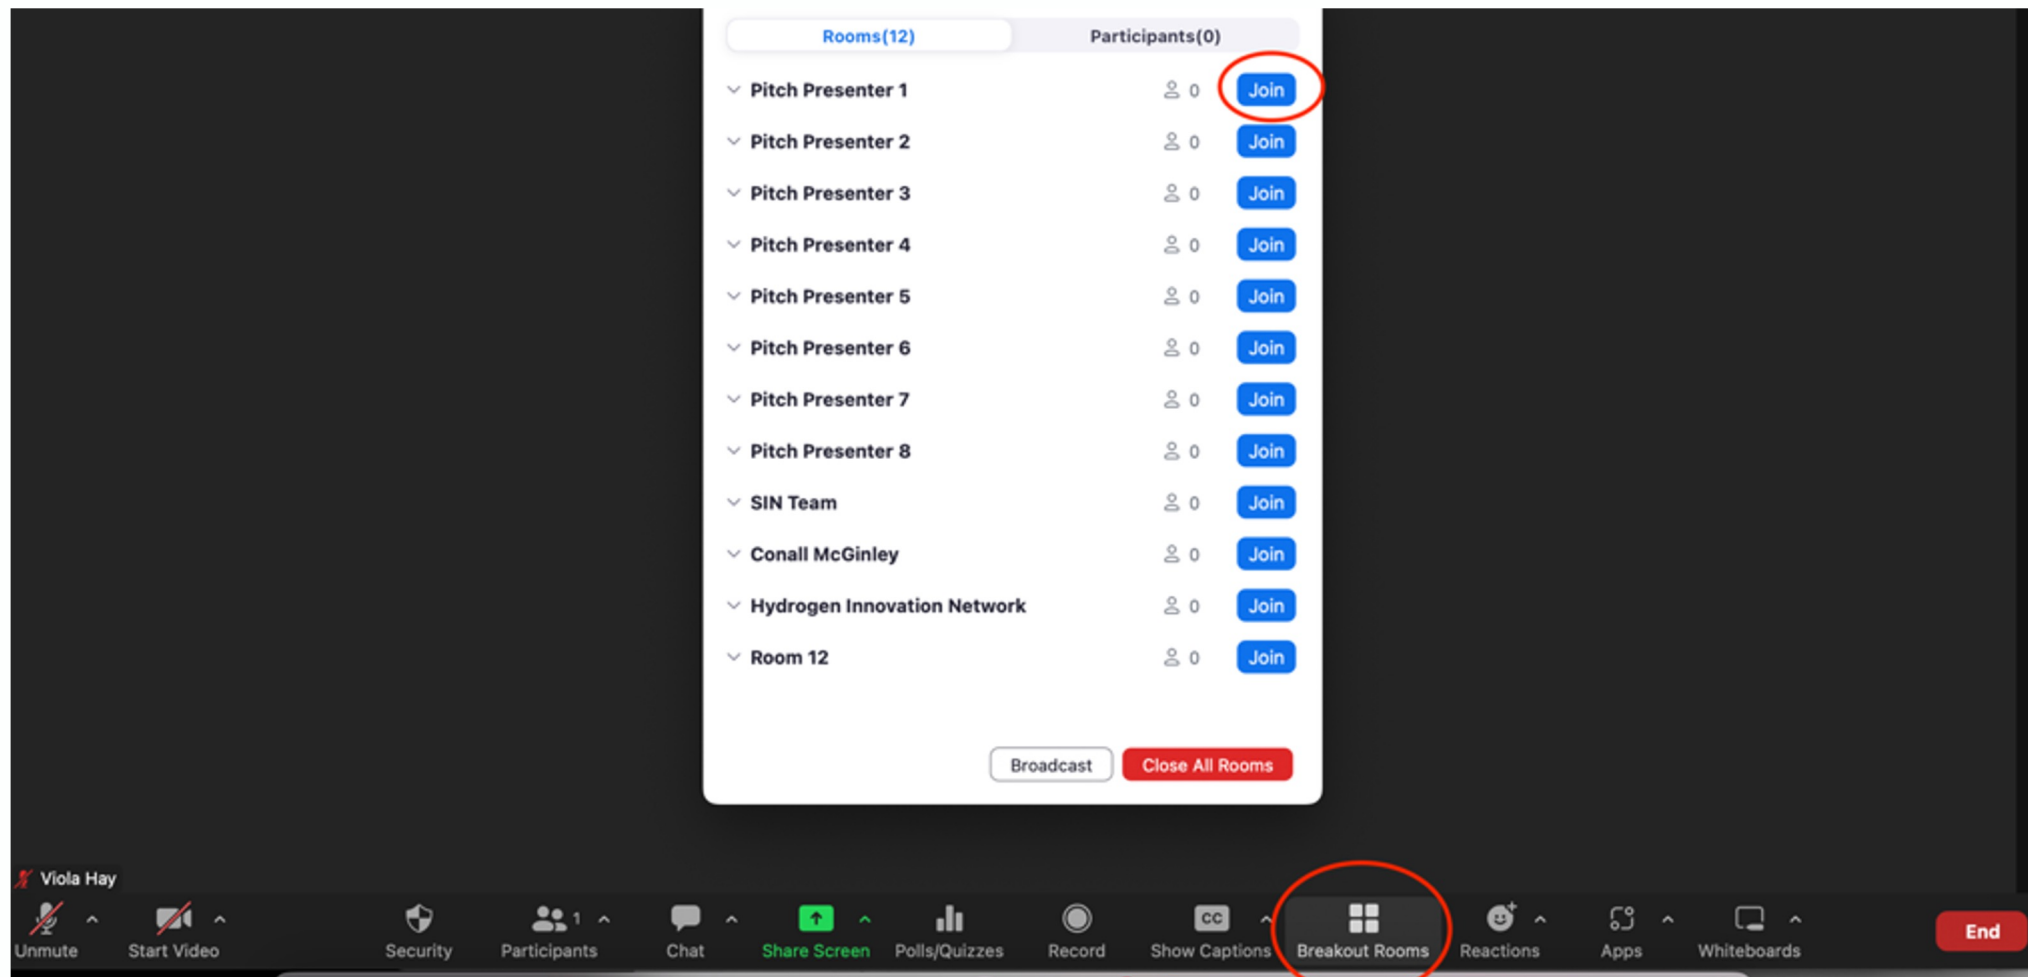

How does it work?

- About 30 minutes for Breakout room discussions.
- You select which breakout room you'd like to join
- You can move around and go to more than one breakout room
- Opportunity for networking and engaging in new collaborations
- If you drop out, you can join the webinar again in the main room and we can help you join breakout rooms of interest to you.

PLEASE NOTE: BREAKOUT ROOMS ARE NOT BEING RECORDED.
