

10:03:15 From Martin Dürr to Host and Panelists:

My name is Martin Dürr, CTO at Dromos. We provide public transport solutions with full-autonomous electrically-powered vehicles. Our sustainability footprint is outstanding - and also incorporates CO2 neutral infrastructure!

10:03:41 From Steve Luxton to Everyone:

Hi I'm Steve Luxton - Treasurer of East Surrey Dial a Ride - a charity community transport provider based in Caterham Surrey.

10:04:35 From Rob to Everyone:

Hi everyone - Rob Helme from MHTech - optimising transition to zero emission fleet through energy consumption simulation. Looking for partners. Thanks

10:04:39 From Ian Pulford to Host and Panelists:

Hi all Ian Pulford Ohmio UK limited - autonomous shuttle provider.

10:04:41 From Simon Buckley to Everyone:

Richard Howarth from Nottingham Business School. Working with a local business on this area and another with existing funding bid (outcome due soon). Published work with colleagues related to the area and wider carbon management and disclosure in organisations.

10:04:57 From Peter.Sarpong to Everyone:

Hello everyone. I am Peter Sarpong, EV Consultant at LCP Delta

10:05:00 From Andrea Marsh to Host and Panelists:

Hello, my name is Andrea Marsh, I work for Kent County Council in the Network Innovations Team.

10:05:05 From James Daulton to Host and Panelists:

James Daulton - Oxford Innovation Partners. Looking for partners involved or interested in road logistics partners to reduce emissions for multiple modal transport.

10:05:12 From Matthew Eglin to Everyone:

I am Matthew Eglin - Sustainable Travel Officer at the Peak District National Park Authority. I am interesting in talking to potential partners interested in working on rural projects

10:05:13 From Andrea Marsh to Everyone:

Hello, my name is Andrea Marsh, I work for Kent County Council in the Network Innovations Team.

10:05:13 From A Mane to Everyone:

Hello, I'm Anant Mane representing Altyn Solutions Ltd — providing IT services & solutions to charities, non-profits and CICs

10:05:19 From Emma Moody, LDNPA to Everyone:

Hello, Emma Moody here, Lead Strategy Adviser at the Lake District National Park Authority, I'm afraid I'll have to leave at around 1100 but will catch up with the recording for the rest.

10:05:29 From Steven Docherty to Everyone:

Hi all, Steven Docherty a consultant from UK Power Networks Services. We specialise in feasibility studies along with technology deployment for energy and decarbonisation of vehicles strategies. Looking for a partner we can develop a project with.

10:05:38 From Marina Garyfalou(TRL) to Everyone:

Hi I am Marina Garyfalou Head of Environment and Decarbonisation at TRL (Transportation Research Laboratory - RTO).

10:05:46 From Graham North - North Yorkshire Council to Everyone:

Graham North - North Yorkshire Council : Looking to improve connectivity and reduce reliance on cars into Sherburn in Elmet Business Park we may be working with Businesses on the estate for a bid.

10:05:48 From Ashley Hogan to Host and Panelists:

Hi All, Ashley Hogan, Segment Account manager - Transport, at Hitachi Energy UK

10:05:53 From james.winnett to Everyone:

James Winnett, Head of Safety and Compliance in Innovation at Penmark (SME)

10:06:07 From nicholas abson to Host and Panelists:

Nick Abson here, fuel cell development for large engine transport and maritime.

10:06:16 From John Holland to Everyone:

Good morning all. I'm John Holland, Managing Director at Kleanbus, the diesel to zero emission repowering specialist.

10:06:19 From Bethany Taylor (City Science) to Everyone:

Good morning everyone,. I'm Bethany, an R&D Programme Manager from City Science, a decarbonisation consultancy focused on helping public and private sector organisations reach their net zero goals. We provide a range of transport planning services to reduce carbon emissions from transportation based on our innovative multi-modal movement analysis tools.

10:06:29 From Faiz to Everyone:

I am Faiz Syed, from National Manufacturing Institute Scotland, RTO under Strathclyde base in Paisley, Central Belt Scotland

10:06:37 From Tom Pigden to Everyone:

Hi everyone, we're Optrak, a route optimisation software developer, looking to partner with local authorities on planning/transition of domestic waste management vehicles to electric RCVs.

10:06:43 From Stephen Peng to Everyone:

Hi everyone, Stephen Peng - Protium. We are a green hydrogen project developer supporting several local councils in England and Wales in decarbonising industrial heat and transport.

10:06:53 From Goncalo Valente to Everyone:

Hi everyone, I'm Gonçalo Valente, Development Engineer at Carbon ThreeSixty - a structural composites design and manufacturer SME.

10:07:01 From Richard Gunner to Everyone:

Hello Everyone, Richard Gunner, chair of the Cirencester Community Railway Project, working to provide a zero-carbon Very Light Rail link between Cirencester and its nearest mainline station at Kemble, to replace all the car journeys currently made.

10:07:05 From Anthony Gallego | IUK-KTN to Everyone:

Hello all, Anthony Gallego , Knowledge Transfer Manager for automated Mobility at Innovate UK KTN.

10:07:31 From Simon Williams to Host and Panelists:

Hi everyone. Simon Williams, engineering director at EMotive Technology - a zero emission off highway vehicle

10:07:37 From Fatih to Everyone:

Hi I am Fatih Ozdemir. Business Development Manager from Babylon Group Ltd. and M2BSistem. We are developing on IOT systems for Transport and Agriculture Projects.

10:07:46 From Fadi Alwadan to Everyone:

Hello, I'm Fadi Alwadan, Energy Projects Manager at the Greater South East Net Zero Hub. My role involves collaborating with local authorities to facilitate the decarbonization of their public estates, aiding them in achieving their net-zero ambitions. Additionally, I account manage and oversee strategic projects in Essex and Suffolk in the South East region. Feel free to reach out if you would like to learn more about the hub's initiatives.

10:08:03 From Rob.Anderson to Everyone:

Hi, Rob Anderson from Mitie Plan Zero - a transport decarbonisation consultancy

10:08:07 From Petros Ximerakis to Everyone:

Hello, I am Petros Ximerakis, an Associate Project Manager at Norman Rourke Pryme, having a role as Head of Strategic Transport and Highways at Lewisham Council

10:08:07 From marcel.steward to Everyone:

Hi Everyone, Marcel Steward here from Runnymede Borough Council working with 6 Districts and Boroughs, Turner & Townsend, City Science, Royal Holloway University, MTR/Heathrow Southern Rail Limited and Heathrow Airport in the Functional Carbon Area

centred Heathrow Airport.

10:08:18 From Ian Pulford to Everyone:

Hi all Ian Pulford - Ohmio UK limited - autonomous shuttle provider

10:08:32 From Tom Salter to Host and Panelists:

Hi everyone, Thomas Salter from WSP. Consultant based in Bristol

10:08:49 From Lu Brook to Host and Panelists:

Hi - Lu Brook - Low Carbon City Officer at Plymouth City Council. Keen to explore new ways to decarbonise our system and try to encourage modal shift.

10:09:08 From Dami Adebayo (The Routing Company) to Everyone:

Morning all, Dami Adebayo from The Routing Company - provider of software for demand responsive transport (DRT) and journey planning, trying to get people on shared transport. We work with local authorities, bus operators and taxi companies to increase use of shared modes.

10:09:17 From Bijan Yadollahi to Everyone:

Greetings from Cambridge! We are CMCL, a digitalisation technology SME offering semantic data interoperability services via developing a graph-based framework. We have applied the technology in several sectors for decarbonisation and climate resilience, including the TRIG-type of applications and also the climate resilience demonstrator CReDo project. More than happy to discuss collaboration. Visit us at <https://CMCL.io>

10:09:52 From Auroskanda Vepari to Everyone:

Hi All - I'm Auroskanda from MOLE. We are automating EV charging for business and consumer vehicles - making charging more efficient, cost effective and a pleasure. Check it out at: <https://www.mole.energy/the-future-of-charging>

10:10:23 From Ben Nichols to Everyone:

Hi, I'm Ben Nichols from the University of Nottingham. We carry out research across transport and decarbonisation sectors. This includes electrification, scheduling and optimisation, human factors and hydrogen. We are always keen to work with partners across these areas.

10:10:27 From GaryHughes to Everyone:

Hi all. Gary Hughes here, Bid Manager at the Compound Semiconductor Applications Catapult. Looking to support electrification through advanced CS development

10:11:10 From Mags Lambert to Everyone:

Good morning from Sunny Suffolk! Mags Lambert from East Suffolk Council. I am a Project Manager and we have two DRT pilots in operation currently and want to roll out

these out further.

10:11:13 From Clinton @MCG UK/Canada to Everyone:

Hi all, Clinton from MCG UK, funded by IUK and focusing on maritime shipping digitalization and decarbonization tools, more details can refer to MCG-Cranfield KTN project earlier this year: <https://www.cranfield.ac.uk/som/research-projects/iot-blockchain-integrated-platform-for-maritime-shipping-industry>

10:11:21 From INKD02849 to Everyone:

Greetings from India!! I am Kanmoni Das, Assistant Engineer at WSP Consultants. We work on Highway Design and carbon reduction is one of sole objective while designing.

10:11:47 From Jim Williams to Everyone:

Jim Williams from Polysolar. We manufacture building materials that also produce energy. We have been working with local authorities on developing projects such as solar car parks and solar facades for buildings. <https://www.polysolar.co.uk/>

10:12:24 From Paul Kemp - Greater South East Net Zero Hub to Everyone:

Hi, I'm Paul Kemp, I am from the Greater South East net Zero Hub, one of 5 Net Zero Hubs funded by the Department for Energy Security and Net Zero supporting public sector organisations in delivering their net zero projects.

10:12:41 From Craig Broadbent to Everyone:

Hi Craig from Auxtail. Developing an integrated rear rack for EVs.

10:13:01 From Ian Barnett-Clegg to Everyone:

Hi all, Ian Barnett-Clegg here from Energy Saving Trust Transport team, we specialise in transport decarbonisation across multiple modes and specialise in working collaboratively across our projects. My email address is [ian.barnett@est.org.uk](mailto:ian.barnett@est.org.uk) if you'd like to connect.

10:14:40 From Faysal Hardan to Everyone:

Hi, I am Faysal Hardan from the University of Birmingham. I am interested in transport system electrification.

10:14:47 From Benjamin Macdonald to Everyone:

Hello Ben from Nodum. We have designed and looking to trial an innovative on street gantry based EV charging solution. Particularly keen on work with authorities in rural environments and in places where aesthetic considerations are particularly important.

10:14:53 From Chris Runciman to Host and Panelists:

Hello, Chris Runciman from the National Composites Centre, RTO in Bristol.

10:15:33 From John and Liliana at Duodrive to Host and Panelists:

Morning Everyone - we are Duodrive Limited based on TeesSide with a core speciality in electric contra-rotating Marine Propulsion with a concept Complete Zero-Emission

Drivetrain “well-to-wake” using Green Fuels (Hydrogen/Ammonia/Methanol).

10:15:36 From David Evans to Everyone:

Good morning all. David Evans here from WMG. University of Warwick. Focus areas are Connected and Automated Mobility and Micromobility to decarbonise local transport systems.

10:16:43 From Miles Prescott to Host and Panelists:

Hello all, Miles Prescott from Urban Foresight. We are a place-based innovation consultancy. I work within the electric mobility team to support local authorities across the UK transition to zero emission vehicles. <https://urbanforesight.org/>

10:17:14 From Dr Martin Kemp to Host and Panelists:

Hello All, Dr Martin Kemp Here from Xcience - innovative on-board hydrogen storage solution

10:17:20 From Craig Dibb - Islands Centre for Net Zero to Everyone:

Hello, I'm Craig Dibb from the Islands Centre for Net Zero - a ten year project accelerating the decarbonisation of Orkney, Shetland and the Western Isles.

10:17:46 From Linden Coleman to Everyone:

Linden Coleman, Senior Product Manager for 3ti Energy Hubs, provider of some of the largest Solar Car Parks in the UK and the award winning innovative Papilio3, a pop-up mini solar car park and electric vehicle charging hub boosting the roll out of EV charging infrastructure and helping to decarbonise the transport sector.

10:17:51 From Steve Puetz to Host and Panelists:

Hi everyone, I'm Steve from Slingshot Simulations. A Place-based optioneering tool kit, enabling decarbonisation insight across transport, energy and buildings for a holistic approach to net zero.

10:19:39 From Miles Prescott to Everyone:

Hello all, Miles Prescott from Urban Foresight. We are a place-based innovation consultancy. I work within the electric mobility team to support local authorities across the UK transition to zero emission vehicles. <https://urbanforesight.org/>

10:20:23 From David Philipson to Everyone:

Morning all, David Philipson, Commercial Product Manager from VEV. We build turn key solutions for the end-to-end electrification of Minibuses, Buses, Coaches, RCVs, HGVs, Fleet, and the depots themselves. We provide the consultancy as well as the delivery and execution of our solutions, supporting your fleet electrification journey throughout with our own CPMS and EMS

10:20:39 From Sarah Williams - Blaenau Gwent Council to Everyone:

Hello, my name is Sarah Williams, Senior Physical Regeneration Officer at Blaenau Gwent Council based in South Wales. We are looking to improve connectivity and

decarbonise transport

10:22:05 From Craig to Host and Panelists:

Hi all, Craig Brew here from See.Sense. We're a cycling and micromobility tech and data company that uses AI driven Vehicle-as-a-Sensor technology to deliver actionable insights to Authorities.

10:24:39 From Nikhil Amin to Everyone:

Morning all, Nikhil Amin from PragmaCharge. We are looking to partner with local authorities to support the build out of HGV charging infrastructure around logistics hubs and rail freight terminals in the South East, West Midlands and the North.

10:25:26 From James Daulton to Host and Panelists:

Oxford innovation Partners interested in working with any major port authorities such as London/Felixstowe/Southampton,etc

10:25:56 From Rob to Everyone:

If any leading parties / local authorities think heat mapping / quantification of energy and emissions across transport operations could be useful to their project - please do not hesitate to reach out

10:26:15 From Kunal Prasad to Host and Panelists:

morning all, I am Kunal Prasad Zero Carbon Council Manager at Oxfordshire County Council

10:28:23 From A Broadbent to Everyone:

Good morning all, Andrew Broadbent, Head of Mobility System Lab at Hitachi's European R&D Centre. We are keen to explore and demonstrate Behavioural Change Techniques to support a transition to sustainable mobility

10:29:11 From Dinah Jackson (Urban Foresight) to Everyone:

Hello all, Dinah Jackson from Urban Foresight and programme manager of Innovate UK's capacity building Future Ready programme of support for the 51 places that are part of Net Zero Living: Thriving Places programme. Great to be hear with my colleague @Miles from Urban Foresight and to see @Marcel from Runnymede Borough Council :)

10:34:52 From Dan Phillips to Host and Panelists:

Dan Phillips @ The RCA's Intelligent Mobility Design Centre. We support teams through creative people and place-centred design-led approaches to net zero mobility, working to activate, share and re-imagine mobility through social, mental and physical health initiatives that take into account the transformation of our centres, our ways and our technologies of movement. Find out more at <https://www.rca.ac.uk/research-innovation/research-centres/intelligent-mobility-design-centre/people-and-places-studio/>

10:34:57 From Edita Ubartaite to Everyone:

Hi Everyone! I represent Dromos- an inclusive, sustainable, affordable and autonomous mass transportation company. 50% lower construction costs and time, and up

to 60% lower operating costs, thus allowing subsidy – free operations. The Dromos system is CO2 neutral, silent, emissions and micro particle free. We are successfully growing in the UK and are working with a number of UK regions and cities. Please reach out to discuss Dromos applicability to urban and semiurban environments, new housing developments, disused railway line reinstatement and other on demand public transport requirements.

10:36:58 From Marcella.Kinsella FODC to Everyone:

Morning everyone. Marcella Kinsella - Lead Climate Change and Sustainable Development Officer from Fermanagh and Omagh District Council looking at non electric options to decarbonise our refuse collection fleet

10:38:47 From James Daulton to Everyone:

Oxford Innovation Partners are interested in working with authorities with Port responsibility or interest in ports and reducing local emissions in the local area and beyond.

10:41:40 From Ashley Hogan to Everyone:

Hi Everyone, Ashley Hogan Account manager - Transport at Hitachi Energy UK  
<https://explorer.hitachienergy.com/#/menu/products-systems>

10:43:58 From tom to Everyone:

Hi everyone I'm Tom Andrews from Levistor we've developed low cost flywheel technology that can enable ultra rapid charging in rural areas where the grid isn't strong enough. We would be interested in speaking to potential partners.

10:44:55 From scott cain to Host and Panelists:

Scott Cain from the UK cycle industry trade body here. If anyone is interested in including bike, e-bike, e-cargo or bike low-powered zero emission EV businesses in their proposal do get in touch with [scott@bicycleassociation.org.uk](mailto:scott@bicycleassociation.org.uk). We'll either intro or facilitate a workshop/briefing. Thanks to Sophie, team and all...

10:48:15 From ISherrington to Everyone:

Hello All, Ian Sherrington, Ted Smith and Homer Rahnejat and others at the Uni Central Lancashire are working on the use of hybrid hydrogen/diesel engines for buses, refuse trucks, etc. it seems to be an effective high TRL solution, but as Sophie says out of scope for this Innovation Call as it low carbon not zero carbon, but we would be happy to speak with others interested in this technology.

10:52:18 From John Holland to Everyone:

Hi. If anyone has a fleet of dirty, heavily polluting, diesel buses, city or rural, or other commercial vehicles types, Kleanbus is open to partnering on applications. We convert to a zero emission electric powertrain. So long as we include off-board charging solutions, we are not "solely on-vehicle development" and therefore fall in scope of this competition.

10:52:45 From Anthony Gallego | IUK-KTN to Everyone:

<https://iuk.ktn-uk.org/events/multimodal-hubs-accelerating-new-solutions/>

10:53:06 From Anthony Gallego | IUK-KTN to Everyone:

<https://web-eur.cvent.com/event/dfc2c1a9-3c35-4259-bbe3-8a9dc4b23373/summary>

10:56:39 From Simon Williams to Everyone:

Simon Williams - Engineering director at EMotive Technology.

Developing an off-highway zero emission vehicle for multiple applications.

[www.emotive-tech.com](http://www.emotive-tech.com)

10:58:17 From Anthony Gallego | IUK-KTN to Everyone:

Innovate UK's application assessment process are located here.

[https://www.youtube.com/playlist?list=PLrMOhOrmeR6ITsx\\_bCczEIQTRH6ARdOFk](https://www.youtube.com/playlist?list=PLrMOhOrmeR6ITsx_bCczEIQTRH6ARdOFk)

11:03:06 From Auroskanda to Everyone:

Hi All, I am Auroskanda from MOLE. We are automating EV charging for business and consumer vehicles, making charging more pleasurable than refuelling a car! Please see how it works at:

<https://www.mole.energy/the-future-of-charging>

11:04:35 From Matthew Eglin to Everyone:

I am Matthew Eglin - Sustainable Travel Officer at the Peak District National Park Authority. I am interesting in talking to potential partners interested in working on rural projects

11:07:07 From Peter Lovering to Everyone:

I'm Peter Lovering, Founder & CEO Beemcar Transport for All, looking for partners
