GEM Objectives

Building International Collaboration

Establish expert insights and objective evidence to inform and enhance the UK's innovation partnerships with key global economies.

Informing UK businesses and Government

Disseminate expert-based insights to maximise knowledge of UK businesses and identify strategic actions to facilitate Government initiative to exploit new opportunities.

Showcasing UK Capabilities

Promote the UK's technological and business strengths to be the "Partner of Choice" in future innovation partnerships with strategic global economies.

GEM Delegation

GEM delegations are chosen to provide a range of perspectives and consist of the following representatives:

- 5/6 external experts invited from business, innovation, funding/investment and policy background
- Innovate UK and Innovate UK KTN representatives
- Technical Writer (independent contracted by KTN)
- UK government in-market Science and Innovation specialist
