Introduction to Animal Care

ANIMAL CARE[®]

CORPORATE PROFILE

...Working for animal health and production

About Us

Established in 1979, our organization has grown from a 2-man concern started by a young couple to an industry power-house with a workforce of over 1300 employees, agents. Our farm operations began in 1983 as a small-scale poultry farm, and has grown today to become one of the largest layer farms in Nigeria, rearing uniform point of lay pullets for farmers across the country and producing premium table eggs for consumers.

ANIMAL CARE is one of the foremost operators in the Nigerian Livestock industry, providing a variety livestock feeds, premixes, health products, equipment and housing consultations, technical laboratory services for disease diagnostics, feed analysis, and research, as well as trainings and other extension services.

ANIMAL CARE[®]

ANIMAL CARE[®]

THE MANURE CHALLENGE!

- ❖ 25 Tonnes of Chicken manure produced daily.
- ❖ Manure is in solid, semi-solid and liquid forms.
- ❖ Suitable technology to convert manure into other forms (renewable energy, chemical extraction, specialized compost, etc) in a safe and sustainable way required.
- ❖ Preferred approach should be onsite, modular and scalable.

Thank you
